Learning & Skills Teacher - Level 5

Programme Overview

The Learning and Skills Teacher is dual-professional, having first achieved competence in a vocational or subject specialism and then subsequently trained as a teacher. This means that many teachers in the Education and Training Sector (ETS) begin teaching as a second, or even later career. The LST role is pivotal to the success of traineeship and apprenticeship programmes, in delivering effective vocational education and training that meets both learners' and employers' needs.

LST's teach young people and adults within all parts of the ETS, including work based/independent training provisions; further, adult and higher education; offender-learning; and the voluntary sector. LTS's are responsible for planning and delivering learning that is current, relevant, challenging, and that inspires learning to engage and achieve their full potential. LST's collaborate closely with colleagues and other ETS professionals in supporting learner progress. LST's ensure the physical, psychological and social wellbeing of learners.

Modules Include:

- Principles of effective programme design
- Principles of effective learning
- Principles of individualised (differentiated) learning
- Planning Learning
- Design and deliver learning sessions and activities
- Facilitate individualised learning
- Quality Assurance with education context
